

HEMODYNAMIX RELOADED

Get the complete picture ...

PiCCO₂

PiCCO₂

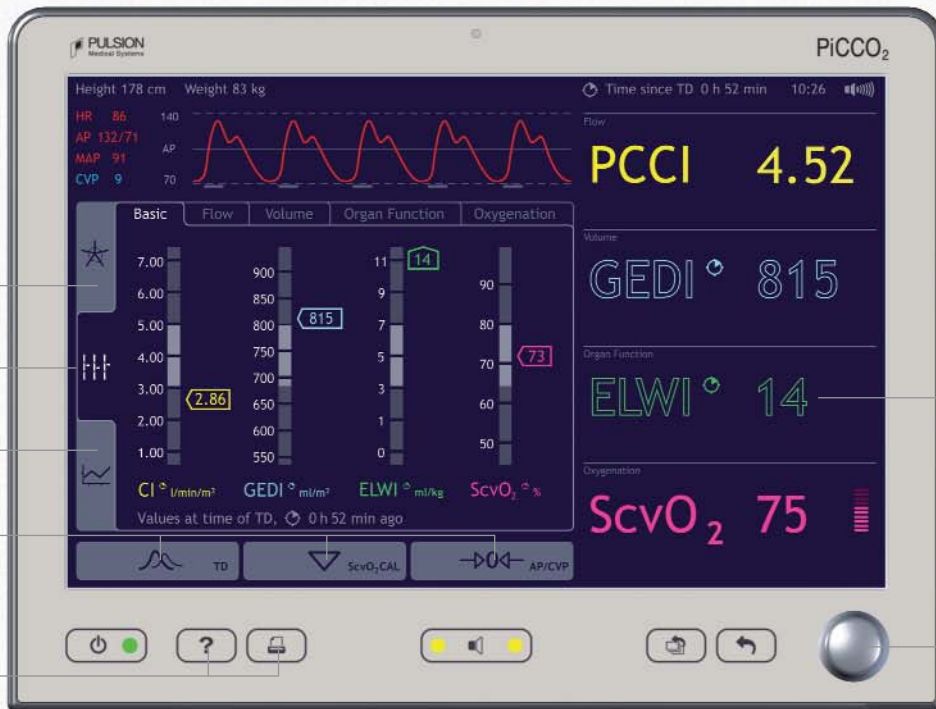

Comprehensive hemodynamic overview

Brilliant 13.3 inch wide screen TFT

Choice of three different ergonomic Visualization displays

Touch screen with Direct access buttons

Help and print function

Unrivalled combination of parameters

Customizable Parameter fields – From overview to detailed insight

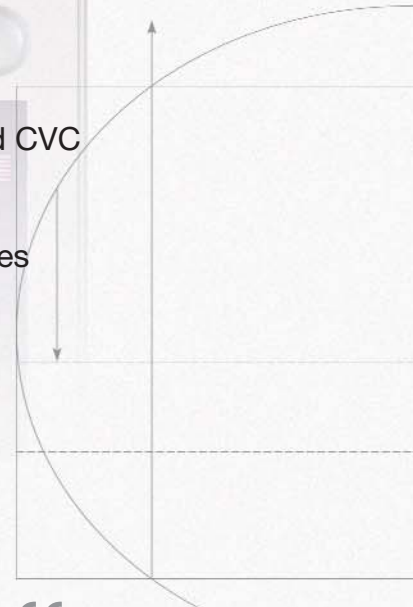

Slim ergonomic design, white, light casted aluminium housing, powder coated

Easy to operate by touch screen or navigation dial

Backup battery integrated; Suitable for commonly used mounting systems

Patient management based on accurate parameters

- ➔ Continuous global oxygen balance (ScvO₂) via standard CVC
- ➔ Precise, calibrated beat-to-beat cardiac output
- ➔ Volumetric preload parameters instead of filling pressures
- ➔ Afterload, Contractility, Volume responsiveness
- ➔ Bedside pulmonary edema assessment

Give us 10 minutes ...
